About This Catalog

The Law Catalog of ProQuest microform contains approximately 60 research collections and over 50 serials. Inside you will find titles related to U.S. & International Law. This catalog also contains information on obtaining Dissertations on Law.

This catalog would be of particular interest to researchers in the fields of U.S. & International Law, Political Science, Philosophy of Law and Policy Studies.

One pivotal collection from the catalog is, *British Trials, 1660-1900*. This collection includes detailed first-hand accounts of thousands of trials along with the record of what was actually said in trials and covers nearly two and a half centuries. For libraries looking to enhance their serials on microform, *The Official Journal of the European Union*, available in the following versions: French, German, Italian, Dutch, English, Danish, Spanish, Portuguese, Greek, Swedish & Finnish; would make an excellent addition to any library. From Legislative decisions to committee resolutions, The Official Journal of the European Union allows users to study the history and expansion of the European, as well as access the full record of the Union's dialogue with other world bodies.

This preface provides a glimpse into the contents of the Law Catalog of ProQuest microform. Feel free to browse through our titles, or if you are looking for a particular research collection, please consult the index in the back. If you have any questions regarding any of our titles, please contact your ProQuest representative at umisalesinfo@proquest.com, 800.521.0600 ext. 2793 or 734.761.4700 ext. 2793.

If you would like additional copies of this or any of our ProQuest Microform Catalogs, you may either make photocopies of the catalogs or contact your ProQuest representative to have printed copies mailed directly to you.

The Advantages of Microform

Despite the continually developing array of digital technologies—and sometimes because of it—information professionals at libraries and universities worldwide still rely on microform. They know it is an archival medium that will meet the needs of researchers for years to come. Microform provides many advantages including:

- **New Viewer/Scanners** - Images can now be easily sent to remote locations using microform viewer/scanners, which link to your computer workstations, letting you view and print articles or digitize and transmit them electronically. This approach combines the unparalleled preservation and storage benefits of microform with the speed and ease of electronic access.
- **Special Collections** - Microform is the answer if you need hard-to-find or specialty resources. Many older newspapers and periodicals are available only in microform, and it gives your users access to complete page images from historical titles—often from the first issue forward.
- **Space Savings** - Microform lets you store an extensive collection of complete article images in a small amount of space. Microform takes up less than one-tenth the area of bound copies of newspapers and periodicals.
- **Ownership** - There is no upkeep or access fees. It uses stable, proven technology you already have, with no need for new workstations or continual software upgrades.
- **Clarity and Accuracy** - Microform is the answer if you need cover-to-cover clarity and accuracy. Full-image articles are essential to getting the full story.
- **Complete Collection** - Microform usually is the best solution if you need a complete collection fast. Maybe you're seeking accreditation or even rebuilding after a disaster. An extensive, customized collection of retrospective and current microform titles will meet the needs of your researchers quickly and efficiently.
- **Support for Specialized Studies** - A compact collection in microform will meet specialized research needs and still leave plenty of resources for the rest of your population. Many libraries also use microform as an added point of access for content that is most in demand.
- **Durability** - archived properly, it can last for generations, and there is no degradation of images.
- **ProQuest Quality** - ProQuest's microform images are taken directly from the original printed pages, so you always get the clarity of first-generation copies.

ProQuest Microform is the answer because we've been producing it since 1938. We not only exceed industry standards, we set them. Our microform products include thousands of newspapers and periodicals and hundreds of research collections, many of which are not available from any other source.

Abstracts on Crime & Juvenile Delinquency

1968 - 1988

This powerful research tool provides nearly 40,000 in-depth abstracts of studies published in more than 180 professional journals and also includes: abstracts of material from books, pamphlets, monographs, federal and state documents, dissertations, case studies, task force findings and statistical analyses. There is also significant material that was never released in print and would be nearly impossible to acquire otherwise. The abstracts cover the entire spectrum of criminal justice literature from 1968 to current year. The collection spans a broad range of research topics, including: criminal law, criminal courts, juvenile law, juvenile courts, criminal justice reform, law enforcement and the police, crime and the adult offender, correction, probation, prisons and parole, prison reform, drug abuse and related social issues. Criminal justice researchers, law and criminology students, law enforcement training academies and criminal lawyers rely on these abstracts to speed and focus their research. The abstracts provide comprehensive information and are fully indexed, with bibliographic citations.

American Association for Labor Legislation

1905 - 1943

In 1905 a small group of economists formed the American Association for Labor Legislation. The group's initial purpose was the study of labor conditions and labor legislation in the United States. By 1909, however, under the leadership of John Andrews, this "study" group took an activist turn and began actively promoting, lobbying for and effecting major changes in worker's compensation, occupational health and safety and child labor laws. Now the history of this powerful labor reform group is available for political scientists, labor law researchers, historians, social scientists and students interested in: charting the evolution of major labor legislation in the United States, tracing the growth of the labor movement and the labor lobby movement, studying reform movements and reform patterns in the early 20th century and obtaining documentation in the study of famous labor leaders.

The collection contains the AALL's correspondence, organizational papers and research materials from exhaustive studies of labor problems and legislative reform, as well as pamphlets, broadsides and press releases. The Correspondence section is the largest and most significant part of the collection - a who's-who of American labor reform in the 20th century. A sample listing of the individual and institutional correspondents includes: Jane Addams, Louis D. Brandeis, Felix Frankfurter, Samuel Gompers, National Child Labor Committee, National Women's Trade Union League, American Federation of Labor and National Consumer's League. The legislative program of the AALL is defined and traced historically through this valuable collection of records. The AALL concerned itself with four major areas during its 36-year history: alleviation of adverse working conditions, promotion of health and safety measures, action against unemployment and social insurance. By resolving such elementary problems as safety and health conditions on the job, the AALL laid the groundwork for future progressive labor legislation. And, it directed the nation's attention to far-ranging social issues concerning the labor movement.

American Civil Liberties Union Records and Publications

1917 - 1989

The right to privacy. Freedom of speech and association. Equal employment opportunities. Liberties that are sometimes taken for granted but often exist in part because of the bitter court battles waged in their defense by the American Civil Liberties Union (ACLU). Now historians, legal scholars, students, political scientists and other researchers can study and evaluate the ACLU and explore the background behind some of history's most important court cases through this comprehensive microfilm collection. It includes early cases such as the Scopes trial and landmark decisions including Brown versus Board of Education and more current legal briefs such as Island Trees Union Free School District versus Pico. This timely collection is organized and divided into the following sections:

Base Collection 1917-1973, 106 reels 35mm

- **Series I:** Minutes of the Board of Directors
- **Series II:** Mailings to the Board of Directors - organization activity reports, reports of standing committees, policy and position statements, agendas, memoranda, circular letters and reprints of articles
- **Series III:** Biennial Conference Papers - documents review the history and development of the ACLU's structure
- **Series IV:** ACLU Policy Guides - present formal position statements
- **Series V:** National Legal Docket - subject-oriented, descriptive list of all the cases in which the National Office or the affiliates were involved
- **Series VI:** Organization Manuals
- **Series VII:** Constitutions and Bylaws
- **Series VIII:** Legal Briefs - partial records for the U.S. Supreme Court cases involving the ACLU. A subject guide is included
- **Series IX:** ACLU Publications - serials published by the ACLU include: Civil Liberties, Civil Liberties Alert, First Principles, ACLU Lawyer, Annual Report and Women's Rights Report. Also includes 731 pamphlets, leaflets and broadsides

Updates 1974-1978; 1978-1980; 1981-1984; 1985-1989, 42 reels 35mm

- Minutes and Mailings to the Board of Directors
- Biennial Conference Materials
- ACLU Policy Guide
- Legal Briefs
- Press Releases
- Publications

The 1974-1978 update also includes Organization Manuals and the Constitution. This collection was filmed in cooperation with the National Office of the ACLU and it provides unparalleled insight into the history of 20th century American legal and social changes. The American Civil Liberties Union Records and Publications is the most comprehensive source for studying the historic civil liberties battles of the 20th century.

American Labor Unions

1836 - 1989

As labor union publications and documents attract increasing interest from researchers, there follows a need for comprehensive reference tools to facilitate their use. This microform collection compiles the widely scattered records of the labor unions in the U.S. The evolution of this body continues today, making current information as vital as historical material. This section offers both the historical perspective and the recent information necessary for labor research. These American labor union constitutions and proceedings from 1836 to the current year are a valuable reference source for students of labor law and history, labor lawyers, government officials, labor leaders and negotiators and unionized and non-unionized corporations. The records document the inner workings of more than 250 union organizations formed in the 19th and 20th centuries and provide incomparable insights into the philosophies of union leaders of the past. Researchers will find material on: election of officers, institutional forms, official reports and resolutions, convention floor debates and statements to the public. Part 1 covers 11 industry groups (A through K, below) for the years 1836-1977 and includes the available constitutions and proceedings of 55 active and 61 inactive unions. Part 2 includes 42 active and 93 inactive unions in the 11 additional industry groups (L-V) spanning the years 1864-1976. The industry groups are arranged as follows:

- **Group A:** The Federations
- **Group B:** Machinery, Automotive and other Transportation
- **Group C:** Clothing
- **Group D:** Electrical and Electrical Machinery
- **Group E:** Public Sector-State and Local
- **Group F:** Metals-Primary and Fabricated
- **Group G:** Transportation-Railroads
- **Group H:** Transportation-Others
- **Group I:** Paper, Printing and Publishing
- **Group J:** Services and Trades
- **Group K:** Communications
- **Group L:** Construction
- **Group M:** Food and Kindred Product
- **Group N:** Textiles
- **Group O:** Leather
- **Group P:** Mining and Quarrying
- **Group Q:** Chemicals and Petroleum
- **Group R:** Stone, Clay and Glass
- **Group S:** Lumber, Wood and Furniture
- **Group T:** Rubber
- **Group U:** Insurance
- **Group V:** Public Sector-Federal

Annual updates provide new constitutions and proceedings for the active unions. Material from the inactive unions in both parts appear from their inception to their termination. Inside this compilation of internal affairs and policies are reports by elected union officials on a variety of labor-related topics, such as legal and financial activities, regional union activities, newly established local chapters, strike mediations and organizing activities. Both historical and current perspectives are provided through the eyes of the union leaders. Their philosophies, hopes and dreams for the American laborer are recorded in the official records of the Officers' Reports section. The organization of the Officers' Reports appears in the same industry groupings as the set of Constitutions and Proceedings. This section of American Labor Unions is also updated annually. Beginning with the 1983 Update, the Officers' Reports are included in the Constitutions and Proceedings and are no longer a separate section; further additions to the two parts appear together in combined updates. Also included are selected Supplementary Documents. These official union papers contain conference reports, joint industry and labor papers and minutes, which delineate accomplishments, interests and activities of various unions. Documents are selected from Cornell University and the U.S. Department of Labor libraries. *American Labor Unions' Constitutions, Proceedings, Officers' Reports and Supplementary Documents: A Guide to the Microform Edition, free with collection*

Constitutions and Laws of the American Indian

This 35mm microfilm program contains approximately 157 separate constitutions, statutes, session acts and resolutions passed by thirteen bodies of semi-independent and self-governing Indian tribes and nations of the United States. All titles listed in the Hargrett bibliography that could be located are included. Additional Indian constitutions and laws discovered have also been filmed. Some of the items were 'last known copies' and their condition is occasionally inferior to that of the rest of the collection; the material was, however, thought too valuable to exclude. Illegible items were not included.

Please inquire for a listing of tribes and nations included; Includes a hardbound copy of A Bibliography of the Constitutions and Laws of the American Indians by Lester Hargrett, Cambridge, Mass. 1947 and a listing of titles included USA

Crime & Juvenile Delinquency Documents

1950 - 1990

This collection of documents selected from the NCCD Collection holdings contains nearly 6,000 full-text titles chosen for their timeliness and research value. Documents are selected to meet the in-depth research needs of colleges, universities, public libraries, law enforcement agencies, law schools and other research institutions focusing on criminology. The documents include municipal, county, state, federal and privately generated documents and reports, from the years 1950 to 1990. Titles from earlier years are also represented, as well as vital crime-related literature from sources outside the U.S., such as Australia, England, Europe, South America and Asia. This collection is the perfect complement to the abstracts, since it provides in-depth, sophisticated research into specific aspects of crime.

Draft and Military Law Collection

1960 - 1969

Many of the issues raised by the war in Indochina remain unresolved today. This collection presents the legal documents of that period from 181 court cases that grappled with moral, legal and religious questions related to the draft. The cases are documented through memos, briefs, transcripts of court proceedings, completed selective service forms, news clippings and attorneys' work papers. Much of the material, such as pre-trial depositions and judicial opinions delivered from the bench, exists nowhere else. Researchers and students concentrating on recent American history can study such questions as:

- What, according to the courts, constitutes a definition of conscientious objector status?
- What is the nature of due process as it applies to the draft?
- How did the courts judge the question of the Roman Catholic "just war" doctrine in relation to selective conscientious objection?

Certain cases documented in this collection involve religious belief. Many others involving members of minority groups and aliens raised the issue of racism in the selective service system. And there are 23 cases based on the U.S. Constitution, U.S. treaties and agreements and the Nuremberg Judgment. For students of law, military science, political science, religion, ethics and sociology, this collection of recent court cases is central to researching and understanding the 1960s.

Delivered in two standard 9 x 12-inch looseleaf binders; A printed index is included in the binder, free with collection; Cases are entered under two headings - Conscientious Objection and Due Process of Law; Divided into 40 sub-topics

La Follette, Robert M. Papers of Robert M. La Follette

1876 - 1924

The microfilm edition of his Papers focuses on his fight to reform corruption and injustice in the political system of the State of Wisconsin. Under La Follette's dynamic leadership the Wisconsin State legislature enacted sweeping domestic reforms including the railroad regulation act and the primary election law which replaced the old caucus and convention system. The Papers include correspondence with Carnegie, McKinley, Roosevelt and other major figures of his day.

- **Shaw, Lemuel. The Lemuel Shaw Papers, 1648 - 1923**

Shaw's personal and professional papers provide scholars with research opportunities into state law in the first half of the 19th century. Lemuel Shaw (1781-1861) was perhaps one of the most influential state jurists in the history of American law and this collection reveals the meticulous care with which he studied each case, the logic and clarity of his judicial utterances and his sensitivity to human qualities. This collection stands unmatched as a record of one of the keenest legal minds in the history of our country. Though his reputation is based primarily on decisions dealing with problems of industry and public utilities in a changing society, Shaw also presided over criminal cases and litigations involving fugitive slaves. Also represented is Shaw's close association with the Melville family including background material on the career of his famous son-in-law, Herman Melville. Individual reels may be purchased..

The Official Transcripts of the Watergate Trial

1974 - 1975

In October 1974, the eyes of the world were focused on the United States as the trial of H.R. Haldeman, John Erlichman, John Mitchell, Robert Mardian and Kenneth Parkinson began. Nixon had resigned and the Watergate co-conspirators had to answer to the court for their alleged involvement in the break-in and coverup. The official court transcripts of this famous trial are now available in their entirety to students in political science, history, journalism and government. The New York Times acquired these transcripts daily to support the efforts of its on-the-scene reporters during the trial. This historic collection filmed from those transcripts includes the day-to-day account of the trial proceedings from October 15, 1974 through January 1, 1975, plus the sentencing of the defendants in February 1975. Watergate is a topic that sparks on-going interest and allegations even today and access to the nearly 10,000 pages in the official transcript is in demand as valuable background file for exploring the Watergate affair. These documents represent a permanent, timely collection that will only increase in historical value in the coming years.

Parral Papers

1631 - 1821

This unique microfilm collection represents perhaps the most definitive historical record of the Southwestern United States and Mexico. Spanning the years 1631-1821, El Archivo de Hildalgo del Parral is a collection of official records, directives, treaties, court transcripts, wills, letters and other documents relating to the Spanish Colonial Era in "Nueva Vizcaya" - the region now including much of the southwestern United States and much of Mexico. Over 360,000 manuscript pages, written in Spanish, provide primary reference on the administration of government, Indian uprisings, slavery, public entertainment, military organization, silver mining, official residences, crime and punishment and civil law. Since the history of the Southwest is often clouded by fiction, the Parral Papers benefit serious researchers attempting to uncover accurate historical data. Included are references to Father Eusebio Koni, the accusation of Juan Mange by the Jesuits, a report on the assassination of the governor of New Mexico in 1644, plus an account of the 1,720 peace treaties with the Apaches and the Texans.

Primary Sources for the History of Pharmacy in the United States: Pharmacy from the Colonial Period through 1940

1700 - 1940

This microfiche collection provides scholars, students and historians with a fine collection of primary sources for comprehensive study of the history of pharmacy as a science and a profession in the United States. It traces the practice of pharmacy from the Colonial Period, when European methods met Native American naturalist treatments, through the development of modern pharmaceutical practice based on biomedical research. The collection contains books on pharmaceutical law, treatises, lectures, textbooks and other antiquarian and scholarly materials. There are drug catalogs and formula books that provide vivid descriptions of medicines and instructions on how to use them. Botany texts document the medicinal use of various plants in the treatment of illness. Any institution supporting a degree-granting pharmacy program as well as allied health science programs such as nursing or medicine will find this collection to be a necessary resource for teaching and research. The collection was filmed at the University of Wisconsin in cooperation with the American Institute of the History of Pharmacy. Some books are from the National Library of Medicine at Bethesda, Maryland and the Center for Research Libraries, Chicago, Illinois.

Records of the Children's Bureau

1912 - 1969

The publication of the microfilm edition of the Children's Bureau records is an important event for scholars of women, the family and the welfare state. Molly Ladd-Taylor American Civilization Program, Brown University. Though the Children's Bureau is one of the least well-known Federal agencies, its records provide one of the richest sources for an understanding of 20th century American society. Founded in 1912 as part of the Federal Government's new commitment to promoting individual and family welfare, the Children's Bureau played an active role in the design and administration of many important social welfare measures including the 1921 Sheppard-Towner Maternity and Infancy Act to reduce infant mortality and the campaign to reduce child labor in the 1930s. The Bureau's voluminous records, including correspondence, research reports, radio scripts, brochures, bills and laws, court hearings and speeches, represent the largest and most important collection of primary material for the study of the family and the health and well being of children in the 20th century. Not only do the documents enable researchers to trace the various stages of Federal involvement in the welfare of children and the development of family law, they also throw a fascinating light on the way welfare policies affected ordinary women.

Reform of Local Government Structures in the United States

1945 - 1971

...a microfiche collection with a printed finding aid that assembles in one package non-serial and non-periodical materials such as legislative studies and research reports, reports of official commissions and civic groups, studies and reports of state and local governments that deal with organizational reform on local government. It is those materials in the area of public affairs that are often characterized as "difficult to obtain", "out of the mainstream" or "fugitive". In bringing some of this material together in one place, the package performs a service... "Significant" documents and reports for the period covered are included... As for technical aspects, the set gets very high marks. Each fiche is clearly marked with document descriptions and the document number is clearly displayed, making for easy filing and retrieval. The filmed copy is clear and legible even though some of the original copy is aged and was not printed on the best quality paper. The contrast is excellent. The workmanship is among the best this reviewer has seen ... The microfiche document amounts to a notable research collection and provides many documents not easily available. Any library involved with public affairs would be wise to consider its purchase.

Salem Witchcraft

1648 - 1930

This unique microfilm collection brings together the written histories and interpretations of witchcraft occurrences in New England from 1648 through the early 20th century. The subject of witchcraft will be forever tied to New England in American minds. Researchers in every generation since have been fascinated by the old trial records and attempts at explaining the hysteria that gripped New England's residents during the late 1600s. The collection touches on witchcraft incidents throughout New England and North America during colonial times. However, the majority of materials surround the most famous and well-documented witch-hunt in history - that of Salem Village in the Massachusetts Bay Colony in 1692. This collection brings together over 60 works representing some 7,000 pages of information gleaned from the Salem Village Witchcraft Collection maintained by the Danvers (Massachusetts) Archival Center. The microfilm edition provides a resource by which students and researchers can understand the events of the witchcraft outbreak and how these events have been interpreted by various writers and scholars from the time of the trials up to the 20th century. Included are:

- Early publications by contemporaries of the events in Salem, such as John Hale's 1702 work *A Modest Enquiry into the Nature of Witchcraft*
- Imprints directly concerning the trials, such as Thomas Hutchinson's 1767 *History of the Province of Massachusetts Bay* and Peleg Chandler's 1841 *American Criminal Trials*
- Full-length histories of the New England witchcraft outbreak including Charles Upham's 1831 *Lectures on Witchcraft* and his well-known 1867 two-volume work, *Salem Witchcraft*
- Sections from often-overlooked local publications and histories, such as *History of the Town of Danvers* (1848), by John W. Hanson
- Legal, moral and psychological interpretations about the witchcraft hysteria outbreak
- Bibliographical materials on the period, including Justin Winsor's *The Literature of Witchcraft in New England*

The material in this collection was carefully selected by Richard B. Trask, curator at the Danvers Archival Center. The printed index accompanying the collection provides easy access to the film through a listing of reel and item numbers.

The California Code of Regulations

This incredible microfiche program is designed to replace the 60 loose-leaf volumes published by Barclay's Law Publishers with approximately 300 space-saving microfiche. The microfiche edition contains the same information – all the regulations emanating from the over 200 state agencies comprising the California regulatory system. Now lawyers, law librarians, students, researchers and legal professionals can have at their fingertips the administrative codes that form California law – the state that is most watched for new interpretations and precedents nationwide. Here's how the codes of an enormous state organization distill to a comprehensive, organized, space-saving and current reference source for your library:

- Each year, Proquest® films the fully updated codes in their entirety and sends them to you, along with a table of contents.
- As the new year begins and codes are amended or repealed, we film and index the changes and send them to you once a month in the form of a register update.
- In addition to the register updates, you will receive a cumulative table of sections affected approximately every three months. This allows you to quickly locate any additions or amendments to the section you are referencing.
- This updating process requires no time-consuming interfiling.
- The updates are simply slipped into the storage binder provided and you are ready to determine in minutes what, if any, changes have been made to the particular regulations you are researching.

Comprehensive Index to the California Code of Regulations – no longer published.

- Indexes are available through 1999 only

The entire code is indexed by subject, using a controlled thesaurus developed by Proquest's professional staff of lawyers and librarians to facilitate data retrieval. In addition, two authority tables simplify research by citing the Regulations-to-Statutes and Statutes-to-Regulations – a cross-referencing system that makes it easy to move back and forth from regulatory data to regulatory source. The CCR Index also includes a retrospective history table, which cites all changes to regulations, including additions or repealers, from January 1, 1975 to the year of the index.

*Beginning in 1989, Parts 2-5 of Title 24 are no longer included; The table of sections loose-leaf edition is updated quarterly

United States v. Rosenberg

The debate over the Rosenbergs' innocence is as contested today as it was nearly 50 years ago. Those who believe they are innocent see the husband and wife as either heroic martyrs or tragic scapegoats. Others see them as victims of alleged anti-Semitic views held by many high-ranking U.S. Government officials during that time. Those convinced of their guilt see them as vicious traitors who put the lives of every U.S. citizen in jeopardy during one of the nation's most vulnerable times. This microfilm collection includes the United States Supreme Court transcripts, the Rosenberg and Sobell Court of Appeals Briefs and the U.S. Supreme Court briefs. There are also copies of the applications for judicial clemency and motions for reduction of sentences, as well as pages pertaining to an attempt for a re-trial on the grounds of newly discovered evidence. Though this collection is by no means a complete record of all motions and proceedings for this trial, it nevertheless provides valuable insights into one of the most famous cases in U. S. history.

Webster, Daniel. The Papers of Daniel Webster

1798 - 1852

"It is probable," Charles M. Wiltse writes in his guide to this collection, "that no man of his time had greater impact upon the development of American institutions than Daniel Webster." As a politician, lawyer, writer and orator, Webster's contributions to the development of American life were substantial. For students in American history, law and political science, this collection will provide valuable background information for research into such areas as:

- Webster's lasting contributions to American diplomatic efforts as secretary of state
- His impact on political thought as the voice of American nationalism at a time when the weight of authority was on the side of state sovereignty
- The lasting value of his legal reasoning as demonstrated in constitutional interpretations, that are still valid today

The 16,000 items in the Papers of Daniel Webster date from 1798-1852, and comprise the most comprehensive collection of Webster materials ever assembled. These papers feature personal and political correspondence, including his resignation as secretary of state. Also among these materials are poems, essays, and orations he wrote while at Dartmouth College, drafts of editorials for the National Intelligencer, legal papers and Congressional and diplomatic documents. This collection is conveniently arranged in chronological order within the broad categories of General Correspondence, Business Papers, Congressional Papers, and State Department Papers. Items already available on microfilm such as official files of the Department of State, or items published separately such as legal papers and courthouse records, are excluded.

British Trials

1660 - 1900

This exciting collection includes:

- Detailed first-hand accounts of thousands of trials, putting flesh on the bones of the official records
- Rare and elusive literature, from major libraries all over the world, in a unified collection for the first time
- The record of what was actually said in trials ranging from murder to commercial disputes
- Unique contemporary evidence for social and economic historians
- Revealing insights into public opinion and popular taste in reading
- Unprecedented ease of access through nine indexes
- Coverage of nearly two and a half centuries, with the ability to focus on any chosen period or subject

At the heart of any system of law and justice is the trial, the moment in a case when the evidence is heard and a verdict reached. One of the most distinctive features of trial by jury is its reliance on the verbal presentation of evidence in open court. The formal written records of these verbal proceedings have often been laconic in the extreme. For both criminal and civil proceedings, the official manuscript records of cases preserved in the Public Record Office or County Record Offices frequently provide no more than the barest outline of the dispute at issue, the identity of the litigants and the final outcome of the case.

The well-known series of printed law reports were usually compiled by lawyers only to inform their fellow professionals on detailed points of legal interpretation. Any sense of what actually went on in court, often indeed any sense of the evidence that was presented, is missing. It is for this reason that the detailed non-official accounts of what was said in court are so immensely valuable. Without them researchers lack a whole body of contemporary evidence and a truly complete picture of the age cannot be attempted. Fortunately, these non-official accounts survive in their thousands. But they are dispersed among many libraries and have not been easy to locate. British Trials 1660-1900 republishes, in an organized and thoroughly indexed collection, those accounts which were originally published as separate pamphlets or books for sale to the public at large. The majority are verbatim transcripts of what was said in court and from 1750 these were compiled by the foremost shorthand experts of the day. In the 17th century the reports tended to be brief summaries of trial proceedings, but even these usually provide more information than other sources. In the main, they were published as commercial undertakings by printers and booksellers, who clearly found there to be a ready market for accounts of a vast range of trials.

Criminal Trials

The most common type of published trials are those concerned with serious criminal offences. Murder trials involving the wealthy and the famous - aristocrats, gentry, prominent local worthies - were especially popular. Cases involving cruelty, ingratitude, or duelling were also in high demand. By comparison, the trials of highwaymen, forgers and burglars may appear mundane, Chartists and trades unions, many trials for treason, sedition and riot arising out of such activities were printed. Here is a record of face-to-face political confrontation under cross-examination, offering fresh insights into the radical thought and methods of repression of the time. Not all criminal cases fall into these broad categories. All sorts of offences were of sufficient local interest or notoriety to prompt publication. For example, the attempt by Jonathan Martin to burn down York Minster in 1829 was so extraordinary that the transcript of his subsequent trial at York assizes was a bestseller.

Civil Trials

There was also a market for printed accounts of many other sorts of litigation. Sometimes the attraction of such accounts was public scandal, but often economic or political concerns were the source of public interest. Among the most titillating of the non-criminal trials were those involving sexual scandal, particularly the famous adultery trials on charges of "criminal conversation" which were usually the prelude to divorce proceedings. Normally these involved the rich and sometimes the famous. They excited all the prurient fascination associated with their modern tabloid equivalents. Commercial disputes were common and included disputes over the powers of official bodies such as corporations, port commissioners, and turnpike trusts. Libel cases frequently occur and there are also trials involving contested wills and contested elections.

British Trials cont.

Value for Social, Economic and Legal History

The value of the collection for teaching and research in social, economic and legal history is immense. Most directly, it offers historians of law and crime the opportunity to consider the mechanics of the law; in particular, to investigate how decisions were made in the courtroom by judges, juries and lawyers and to explore the ways in which evidence was constructed and evaluated. Where most studies of this kind have so far concentrated on the criminal courts and particularly those in London, British Trials 1660-1900 enables historians to expand their enquiries to other parts of Britain, including Scotland and Ireland and to other types of court. The collection is, equally importantly, a unique source of primary contemporary evidence for the study of the social and economic circumstances of the period.

The accounts of what was said in court are frequently so rich that it is possible to glean from them detailed information on the structure and operation of British society at all levels - during nearly two hundred and fifty years. It is the very stuff of history. The records of criminal trials tell us as much about the people and the property on whom criminal offenders preyed as about the offenders themselves. Similarly the non-criminal cases are a mine of information about many aspects of the social and economic history of the period. "Criminal conversation" cases illustrate the seamier side of upper-class marriage, the manners and morals of the day, the role, responsibilities and attitudes of servants; commercial litigation demonstrates contemporary business practice and the perils of all kinds of business enterprise. British Trials 1660-1900 offers the most detailed accounts of what was said in court, the most extensive geographic coverage and the widest possible range of different types of case, criminal, courts martial, civil and ecclesiastical. It provides the historian with an unrivalled opportunity to study almost every aspect of social and economic life between the 17th and 19th centuries.

Value for Literary History

The commercially published accounts of trials which make up this collection are also a largely untapped source for historians of publishing. They are a quite distinct literary genre, of importance both for the market which they commanded in their own day and for the place they occupy in the evolution of popular reading. Until the last years of the 19th century, this type of sub-literary publication was a staple ingredient of publisher's lists, both in London and in the provinces. Regular and reliable sales could confidently be expected from them. The true-life, human-interest dramas which they so graphically portrayed were then and have remained, irresistible to a wide reading public. At the same time, the characters, events and disputes which they described were a rich source of raw material for novelists of the period. A hundred years and more later these accounts provide valuable research material for the literary historian which cannot be found elsewhere.

English Poor Laws

1639 - 1890

The early English Poor Laws had a great influence on the development of international public policy regarding the poor and unemployed. This collection provides an unparalleled opportunity for researchers in the fields of sociology, public health, social work, psychology, history and others, to study the evolving laws over a 200-year period. Filmed from the archives at Sutro Library, a branch of the California State Library, the collection contains books, pamphlets and public papers arranged by date. Included are materials from England, Scotland and Ireland, such as:

- London labour and the London poor by Henry Mayhew, renowned for its clinical descriptions of living conditions in the slums
- A 20-year run of the accounts and expenditures of the parish of Paddington
- The Local Government Board reports as presented to the British Parliament
- Reports from more obscure institutions, such as Princess Mary's Village Homes for Little Girls and the Destitute Children's Dinner Society
- Other works outlining the philosophical, economic, or sociological basis on which policy was formulated

Pre-1850 material focuses on the able-bodied unemployed poor. This group of dependent poor aroused the most controversy and inspired passionate writings on their treatment. Various proposals were submitted ranging from the construction of workhouses to a national system of labor exchanges. Joseph Townsend's Dissertation on the poor laws, published anonymously in 1786, supported the abolition of the Poor Law system, declaring that the trouble came from the Poor Laws themselves. Material published after 1850 focuses on the care of the poor, including discussions of the relationship between sanitary conditions and disease and poverty and crime. Items concerning poor children, delinquency and health also appear in documents from this era. Examples of this are Florence Nightingale's Suggestions for improving the nursing service of hospitals and on the method of training nurses for the sick poor and Mary Bayly's Ragged homes and how to mend them. Containing rare and fascinating material - much of it unavailable from any other source - English Poor Laws is sure to be a unique and highly valued addition to any library's collection.

Janson, Cobb, Pearson*

1728 - 1928

The firm of Janson, Cobb, Pearson & Co is believed to be the oldest surviving City of London solicitors. As such, the Archives provide a unique source of information which no researcher or student should be without. The firm has consistently been at the very centre of commercial life in the City, with many high-profile clients including the Royal Exchange Office, the Imperial Fire Office and the Barclay Brothers (proprietors of what is now Barclay's Bank). The Janson, Cobb, Pearson archives are particularly unusual in that they are the actual internal records of the firm and its activities on behalf of clients. No other extant solicitors records are so extensive.

Records of the Court of Arches: Lambeth Palace Library

1554 - 1911

The Court of Arches is the Archbishop's court of appeal for the province of Canterbury. In its heyday it stood at the centre of a complex network of church courts, exercising an extensive jurisdiction, placing many local communities under close and rigorous scrutiny. All human vice and misfortune are chronicled in its records. Though the original records are in a fragile state, their reproduction in microform makes them widely available opening up a rich primary source to researchers in social, economic, legal, ecclesiastical, architectural and genealogical history.

花井卓蔵文書

1868 - 1931

This collection, of particular interest to all those studying Japanese pre-war legal history, constitutes the papers and records of Hanai Takuzo (1868-1931). Hanai was a famous criminal law attorney who participated in the trials for both the Hibiyai Incendiary Affair and the Taikyaku Incident. He was also a member of the Upper House and Lower House of Japan. During the period when he was in the Diet, he played an important and active role in modern Japanese lawmaking as a member of the Legislation Committee. These papers shed light on legislation in which Hanai was personally involved, as well as on the general process of lawmaking.

Corpus Christi College: The Anglo-Saxon & Mediaeval Manuscripts Collection*

The collection of Mediaeval manuscripts held at Corpus Christi College Cambridge is one of the foremost in the Western world. In particular, it is renowned for the quality and number of its Anglo-Saxon manuscripts, which devolved mainly from the famous collection deposited by Archbishop Parker on his death in 1575. There are six main subject areas in the manuscripts and a selection of miscellaneous subjects entitled "Secular Studies". Among the great treasures of the collection are the Canterbury Gospels, the Peterborough Psalter, Chaucer's Troilus and Criseyde, the Anglo-Saxon Chronicles, the Dover Bible and the Bury Bible.

The Manuscripts of the Munich University Library* 800 - 1600

The Munich University Library is in possession of more than 600 medieval manuscripts. Some of them are exceptional treasures such as Lex Baiuvariorum, the oldest preserved manuscript of the Bavarian public law (dating back to around 800) or a gospel book from the court school of Karl the Great (also around 800).

- **The Medieval German Manuscripts, 500-1450***

They mainly consist of 100 entirely textual manuscripts or manuscripts for commodity, Artes literales and religious prose, books of law (Golden Bull, Upper Bavarian land law, several Swabian codes, city law of Augsburg), calendars, cooking manuscripts, a hunting book, medical and scientific texts. Most codices date back to the second half of the 15th century and originate from Old Bavaria, Franconia and from the Swabian region. There are also some texts from central parts of Germany as well as from the Netherlands. Worth mentioning is a book by Michael de Leones (around 1350), which presents a rich tradition of Middle high German literature.

Trinity College Cambridge Library: Mediaeval Manuscript Collection *

The world famous library of Trinity College, Cambridge is the home of some of the greatest treasures surviving from the Middle Ages. The collection, which contains some 1,500 volumes, has been microfilmed in its entirety and will allow scholars the opportunity to explore a unique source of information on every aspect of mediaeval knowledge. Though manuscripts such as The Trinity Apocalypse, the Canterbury Psalter, the Winchester Psalter and a copy of St. Paul's Epistles (possibly in Bede's own hand) stand out, it is the depth and range of Trinity's holdings which make this collection such an indispensable source.

Royal Institute of International Affairs (RIIA) Classified Catalogue

1914 - 1983

In response to needs brought to light by the Versailles Peace Conference, the Royal Institute of International Affairs (RIIA) was founded in Britain in 1920 with the mission of researching and preserving information about foreign affairs. Its main objective: "to facilitate the study of international questions and promote the exchange of information," according to its 1926 charter. This objective was to be achieved in part by providing and maintaining a comprehensive library of relevant works. Headquartered at Chatham House, a historic home in St. James' Square, London, the RIIA has collected thousands of works on international affairs, including political and economic conditions in sovereign states. Included are such important historical documents as British and Foreign State Papers and documents of the League of Nations and the Permanent Court of International Justice.

The library, a European Documentation Centre, is a depository for United Nations documents and holds extensive collections from the Organization for Economic Co-operation and Development, the Organization of American States and other international groups. Economics materials are represented by statistical bulletins, regional and national annuals, as well as texts of economic plans and publications of international and central banks. Royal Institute of International Affairs Classified Catalogue organizes more than 60 years of research and library acquisitions assembled through an extensive worldwide network. In addition, two annual supplements (1981-1982 and 1983) were published. Geographic and subject indexes organize material into these easily accessible subdivisions:

Russian History and Culture

1828 - 1917

Inside the Soviet Union, Russian history prior to 1917 has been subject to censorship and reinterpretation. Were it not for the Helsinki University Library, an official depository of Russian books from 1828 to 1917, much of Russia's ancient and rich past might have been lost to students in the West. Now graduate researchers in Slavic studies, Russian history, politics, literature and culture have access to an outstanding collection of 5,000 scarce titles in the humanities and social sciences from Helsinki University Library's 300,000-volume Slavonic collection. Titles for this collection have been chosen by the staff of the Slavic and East European Department of the University of Illinois Library at Urbana-Champaign. Selections are cross-checked against such sources as Cyrillic Union Catalog, The Slavic Union Catalog and the National Register of Microform Masters to avoid duplicating materials already in North American libraries. The result is a collection of books previously unavailable in the United States and Canada. Russian History and Culture contains books in eight major categories:

- **Russian Politics and Government** - including a study of peasant self-government, a description of local peasant institutions and an examination of reforms in local and central government
- **Russian Industry and Trade** - containing valued resources such as A. Petrov's Chronicle of Russian Industry in 1843, P.A. Vikhliaev's Agricultural Economy and Trade Among Peasant Populations (1908) and M.M. Vol'skii's Sketch of the History of the Grain Trade in the Novorossiisk Region from Antiquity to 1852
- **Military History** - with volumes on the Russo-Japanese war, military life during the Turkish War of 1877-78, as well as regimental histories from the reigns of the czars
- **Literature** - including collections of lyrics, literary almanacs and a study of the language in major works of Russian literature from the 11th to the 19th century
- **Biographies, Memoirs and Histories** - such as a biography of Grand Duke Peter Mikhailovich Volkonskii (1776-1852), Anna Ivanovna Volkova's Memoirs, Diaries and Articles (1913) and Nikolai Iraklievich Voronov's Memoirs of the Western Region (1907)
- **Education** - with works discussing questions of national education among "Old Believers," the Moscow Commercial College, secondary education in Kazin in the 18th century and national education in Voronezh province
- **State and Law** - covering such topics as the system of land tenure, statutes for various ranks of the municipal police and a history of criminal legislation
- **Social Questions** - including N.G. Voronov's Fundamentals of Sociology (1912), substantial coverage of the women's movement, Russian Jewry and public health

From legislative decisions to committee resolutions, The Official Journal of the European Union (OJ) lets users study the history and expansion of the EU, as well as access the full record of the EU's dialogue with other world bodies. This daily publication allows you to: Access the official record of EU legislation, Obtain complete coverage of EU development, Find detailed information on individual EU member countries and their role within the EU and Investigate the EU's dialogue with other world bodies. As the authoritative source of EU law, the OJ is the full record of ancillary and regular reports of the EU, with a complete backfile to 1952. The ProQuest microfiche edition is the only source for the complete OJ Legislative (L) Series and Court of Justice (C) Series.

Although the OJ is published in print by the EU, as well as in electronic form in 11 languages, the print editions are limited runs and, particularly for the earlier years, can be difficult or impossible to acquire. Additionally, the electronic runs are available for only a limited time. Subscribers to the OJ microfiche edition automatically receive monthly updates, so users get the exclusive complete archive of EU policy and development. The ProQuest edition, available on compact and long-lasting silver halide microfiche, is published one month after the release of the original documents. The OJ on microfiche contains:

- Legislation (the 'L' series) - regulations, directives, decisions, recommendations and opinions
- Court of Justice (the 'C' series) - summaries of judgments from the Court of Justice and the Court of First Instance;
- Statements of the Committee of the Regions and the Economic and Social Committee, competition notices and much more.
- Debates of the European Parliament - a verbatim report of the Parliament's proceedings, issued in monthly installments

In addition, OJ subscribers get the annual Directory of Community Legislation in Force, as well as monthly and annual chronological indexes. The monthly and annual indexes consist of two volumes: Volume I- Alphabetical Index and Volume II - Methodological Tables. Indexed items in the Alphabetical Index refer to the titles of the documents in the Methodological Tables.

Commonwealth Law Bulletin

1974-2000 and continuation

The British Empire is no more, its place taken by a multitude of free and independent states. Its legacy, however, survives in the form of social and economic transformations, cultural ties and a body of laws and precedents that link nations from Australia to Zimbabwe, from Belize to Vanuatu. The institutional expression of these ties is the Commonwealth of Nations and its highest governing body, the Commonwealth Secretariat. Each issue of the Bulletin contains the following:

- Summaries of important legislation from each member state
- Key judicial decisions
- Reports on legal reform
- Notice of new regulations affecting legal professionals in the member states
- Changes and decisions in international conventions and courts as they affect member states
- Top-ranked scholarly articles on international law
- Book reviews, notices and announcements

Commonwealth nations share an underlying body of law and precedents, impacting the United Kingdom, Canada, Australia, Singapore, South Africa and the Indian subcontinent, as well as numerous other countries in Africa, the Caribbean, Europe and East Asia. This makes the Commonwealth Law Bulletin an essential resource for legal scholars, students or practitioners with an interest in these countries, no matter where they are. Now, with publication of the microfiche edition, libraries can provide their patrons with ready access to the full backfile of this significant publication, in a lasting, secure format silver halide microfiche.

Decisions and Reports of the European Commission of Human Rights

1975 - 1999

Decisions and Reports was a quarterly publication of the Council of Europe that contained the Council's rulings over the admissibility and validity of human rights charges submitted to the European Commission of Human Rights. Also included were the Commission's reports when they were allowed to be made public. Decisions and Reports ceased publication in 1999.

Each case covered in Decisions and Reports contains the history, complaint or the "statement of facts" concerning the dispute, a listing of the members of the Council who were present during the proceedings, the variables the Council took under advisement during the case and the final ruling. In some instances, excerpts of particular laws concerning a complaint are reprinted in the text.

Decisions and Reports 1975-1999 is now available on microfiche from ProQuest. Libraries holding incomplete runs, the original paperbacks, or damaged issues of Decisions and Reports will welcome this microfiche edition to supplement or replace their print collections. For those who do not currently hold Decisions and Reports, the microfiche edition offers a convenient way to acquire the entire backfile instantly.

About the COE

The Council of Europe was founded in 1949 to promote unity and cooperation among European nations. Soon afterwards, the Council established the Convention for the Protection of Human Rights and Fundamental Freedoms, also known as the European Convention on Human Rights. Under the Convention two bodies were created: The European Commission of Human Rights (1953) and the European Court of Human Rights (1959). Both bodies adjudicate human rights questions.

UMI Dissertation Publishing

Soon after its founding in 1938, UMI became the publisher of record for U.S. doctoral dissertations. To this day, ProQuest fills that role for graduate students whose dissertations and masters theses have been accepted by accredited institutions throughout North America.

How UMI's Dissertation Program Works

Dissertations and theses available from ProQuest /UMI are used by researchers in all fields of study. The ProQuest /UMI dissertation product line - which consists of bibliographic data, indexing, access tools and the published documents themselves - is recognized worldwide because of its comprehensive coverage, high-quality information and rigorous editorial control.

The online ProQuest Dissertation & Theses Database (PQDT) catalogs over 2 million doctoral dissertations and master's theses, dating from the first U.S. dissertation in 1861. Thousands more are added yearly. Over one million dissertations and theses are available in full page image in microform and paper, both bound and unbound. Many are also available in digital format, for downloading over the Web. Dissertations can be located and ordered on a standing order basis or via:

- ProQuest Dissertations & Theses, which provides searching capabilities and online access to citations and abstracts for every title in the database. Titles published since 1997 are available in .PDF digital format and have citation and abstract, plus 24 page previews available. Dissertations can be purchased in print, microfiche or .pdf format.
- ProQuest Dissertation Express for both individuals and libraries. If you have a specific title in mind, Dissertation Express will let you look it up by title, author or publication number. Once you find it, you can place your order immediately via our online ordering system. Use this service when you know exactly which dissertation you need to order. Dissertations can be purchased in print, microfiche or .pdf format.
- DATRIX Direct - custom computerized search service (please see the DATRIX form enclosed in this document). This is an individualized search we perform for you based on your specific research topic.
- UMI Digital Archiving and Access Program - Ask your UMI representative about this new access and preservation service for institutions.

DATRIX DIRECT

Direct to you Successful research depends on your sources. That's why if you're preparing to start a research project, it makes sense to first find out what's been written in your area of interest. You'll not only avoid duplicating someone else's work, you'll benefit from their research. | You could search the titles of over 1.6 million dissertations and master's theses yourself—if you have the time and patience. Or you can have DATRIX Direct conduct a dissertation search for you that's exhaustive, not exhausting.

Discover sources unique to your topic DATRIX Direct is an individualized search that gives a one-of-a-kind listing of only those dissertation citations directly relevant to your specific research topic. The result is a computer printout of exactly the bibliographic citations you need. No more and no less. It could be as many as five hundred or as few as none (informing you that your research topic is totally unexplored).

Because it's a computerized search, DATRIX Direct is comprehensive—through UMI's vast computer database of over 1.6 million dissertations and master's theses dating back to 1861. And with thousands of citations being added to the database every month, DATRIX Direct is more up-to-date than any printed source. ■ Each citation includes a title, author, degree, date, institution, subject category, and order number, as well as where the abstract can be found in UMI's monthly publication *Dissertation Abstracts International* or the bi monthly *Masters Abstracts International*.

How to order your search To organize your search, complete both sides of the DATRIX Direct Search Request form and send it to UMI at the address shown. ■

The results of your DATRIX Direct search will be sent first-class mail and should arrive within two weeks of receipt of your order. For faster service, call us toll free at 800-521-3042; outside the U.S. and Canada, call 734-761-4700, ext. 7044.

SUBJECT CATEGORIES Dissertation Abstracts International is arranged by subject categories. These categories have been selected by the authors to identify their dissertations.

DATRIX DIRECT SEARCH REQUEST The success of your search depends on how accurately and specifically you describe your research needs. The information you provide below will help us create a search strategy. Please type or clearly print in ink.

RESEARCH TOPIC Write the proposed title of your study or a summary of your research topic _____

DATABASE MATERIAL TO BE SEARCHED *(Please check one.)* Dissertations & master's theses Dissertations only Master's theses only

KEYWORDS UMI's dissertation database is accessed by a search for keywords in the dissertation title. The number of relevant citations retrieved depends largely on your keyword strategy. For best results, follow the procedure below:

1 Write 1 to 3 keywords from your research topic that might appear together in the dissertation titles in our database (e.g., "Nursing Burnout"). A keyword can also be numeric ("1980") or alphanumeric ("B12"). Only dissertation titles containing all the words you list on a single line can be retrieved.

2 To avoid having to list all possible word endings for a keyword, simply write the root word and an asterisk. One or more complete words must follow the root word on the same line (e.g., "Nurs*, Burnout*" would search for words such as "nurse, nurses, and nursing" which appear in the same titles as "burnout").

3 Use the other lines for synonyms and alternate words and spellings (e.g., "RN; LPN; BSN").

4 Modify words likely to appear in hundreds of titles with more specific words.

5 If appropriate, use the right-hand column to list keywords that exclude data you don't want. (e.g., "Nurs*, Home*" and "Nurs*, Homes*" would exclude titles relating to nursing homes or home nursing. Note that the computer recognizes no word order.)

SUBJECT CATEGORIES *(optional)* Each citation title is listed in UMI's dissertation database in a subject category chosen by the author. On the opposite page is a complete listing of subject categories and codes. List the categories (and codes) most relevant to your research topic.

| CODE | CATEGORY |
|-------|----------|
| _____ | _____ |
| _____ | _____ |
| _____ | _____ |
| _____ | _____ |

DEGREE DATES *(optional)* You may narrow the database search to certain years or time periods (e.g., "1980 through 1983"). This is especially recommended for broad categories such as "Education, Administrative", for which nearly 1,200 titles are added each year.

INSTITUTIONS AWARDING DEGREES *(optional)* You may restrict the search to dissertations and master's theses prepared for specific institutions (e.g., "New York University and UCLA").
