WHO IS PROQUEST?

ProQuest stands for better research, better learning, better insights. Core to serious research, ProQuest enables the world's libraries, universities and research-reliant organizations to help their students, faculty, patrons and researchers achieve extraordinary outcomes.

Our partnerships with content owners of all types is central to our mission. ProQuest is a gateway to rich, vast and varied information, accessible via digital technologies that enhance its discovery, sharing and management. ProQuest is curator of...

1.5 billion documents, spanning six centuries, including

- Peer-reviewed journal articles, working papers, magazines, trade publications, reports, statistics, contemporary news sources, government publications, conference proceedings, ebooks, videos, gray literature, blogs, film and so much more.
- The world's most consulted commercially-available database of dissertations and theses
- The world's most prestigious archive of historical newspapers, three centuries deep
- Millions of pages of historical primary sources that document social, cultural and political change in the world

Our intuitive discovery and access, plus powerful research tools support **70 million users worldwide, conducting a billion searches every year.**

WHY PARTNER WITH PROQUEST?

EXPAND YOUR GLOBAL REACH

Innovations from ProQuest have built a network of researchers in over 26,000 libraries across 152 countries. Our expert indexing plus discovery and content management tools broaden the value of your information to thousands of institutions, organizations, researchers and scholars worldwide.

CULTIVATE NEW AUDIENCES

ProQuest's presence in academic, corporate, government, school and public libraries means your content will be available to a broad range of researchers, including undergraduates, graduate students, faculty and information professionals.

PROMOTE YOUR BRAND

We'll also be your strategic development partner by allowing you to leverage our continued significant investment in our products and constant exploration of leading technologies for preserving and delivering content, including new distribution pipelines, linking options, and other emerging market opportunities—all in an effort to help you achieve your distribution objectives.
