Medley Global Advisors reported the addition of Ben Emons as a Senior Strategist to the talented slate of its Client Strategy team.

According to a release, a 22-year veteran of markets, Emons joins from Intellectus Partners where he was Chief Economist and Head of Credit Portfolio Management. A frequent contributor to Bloomberg View, Radio, and TV, and a published author and professor, Emons previously worked as a Senior Portfolio Manager at PIMCO. Based in Los Angeles, Emons joins as a Managing Director.

"We are delighted to have Ben on board to add his unique expertise to our client coverage," said Brendan Fitzsimmons, Senior Managing Partner, Global Head of Macro Strategy and Client Engagement at MGA. "Ben brings over 20 years of experience managing risk and advising investors and will be a key asset to our global macro coverage."

1. A Lookup/Browse feature is available for this field in the Advanced Search dropdown or in Browse Fields.
2. Click the "Field codes" hyperlink at the top right of the Advanced Search page. Click "Search syntax and field codes", then click on "FDB command" to get a list of database names and codes that can be searched with FDB.

Search Tools

Field codes are used to search document fields, as shown in the sample document. Field codes may be used in searches entered on the **Basic Search**, **Advanced Search**, and **Command Line** search pages. **Limit options**, **Look up lists**, and **"Narrow results by" filters** tools are available for searching. Some data can be searched using more than one tool.

Limit Options

Limit options are quick and easy ways of searching certain common concepts. Check boxes are available for:

Full Text

Short lists of choices are available for:

Source type, Document type and Language

Date limiters are available in which you can select single dates or ranges for date of **publication** and **updated**.

Lookup Lists

You can browse the contents of certain fields by using Look Up lists. These are particularly useful to validate spellings or the presence of specific data. Terms found in the course of browsing may be selected and automatically added to the Advanced Search form. Look Up lists are available for:

Author, Publication title, Business subject, Company/organization, Person, Location

“Narrow Results By” Filters

When results of a search are presented, the results display is accompanied by a list of “Narrow results by” options shown on the right-hand panel. Click on any of these options and you will see a ranked list showing the most frequently occurring terms in your results. Click on the term to apply it to (“narrow”) your search results. Narrow results by filters in this database include:

Full text, Source type, Publication title, Document type, Subject, Product Classification, Company/organization, Location, Person, Language, Publication date

Look Up Citation

If you need to trace a particular bibliographic reference, use the Look Up Citation feature. Find a link to this toward the top left of the Advanced Search page, or in the drop list under Advanced on any search form; click this and you will go to a page where you can enter any known details of the citation, including: Document title, Author, Publication title, ISSN, ISBN, Volume, Issue, Page, Publication date, DOI.

Document formats

Pre-defined document formats are available for viewing and download. Search results can be downloaded with the Download all results, Email, Print and Export/Save options, and when creating an alert. To design your own download format, choose the “Custom” format option and check the fields to be displayed.
