

RCL use cases *for* students

RCL helps students strategically explore curated resources—from key reference works to canonical texts.

Explore how RCL helps students with:

- ✓ *Finding key reference works*
- ✓ Supporting research success
- ✓ Preparing annotated bibliographies

RCL use case :: Finding key reference works

For early researchers, reference resources can provide important introductions to the topic and frameworks for critical inquiry.

With RCL you can:

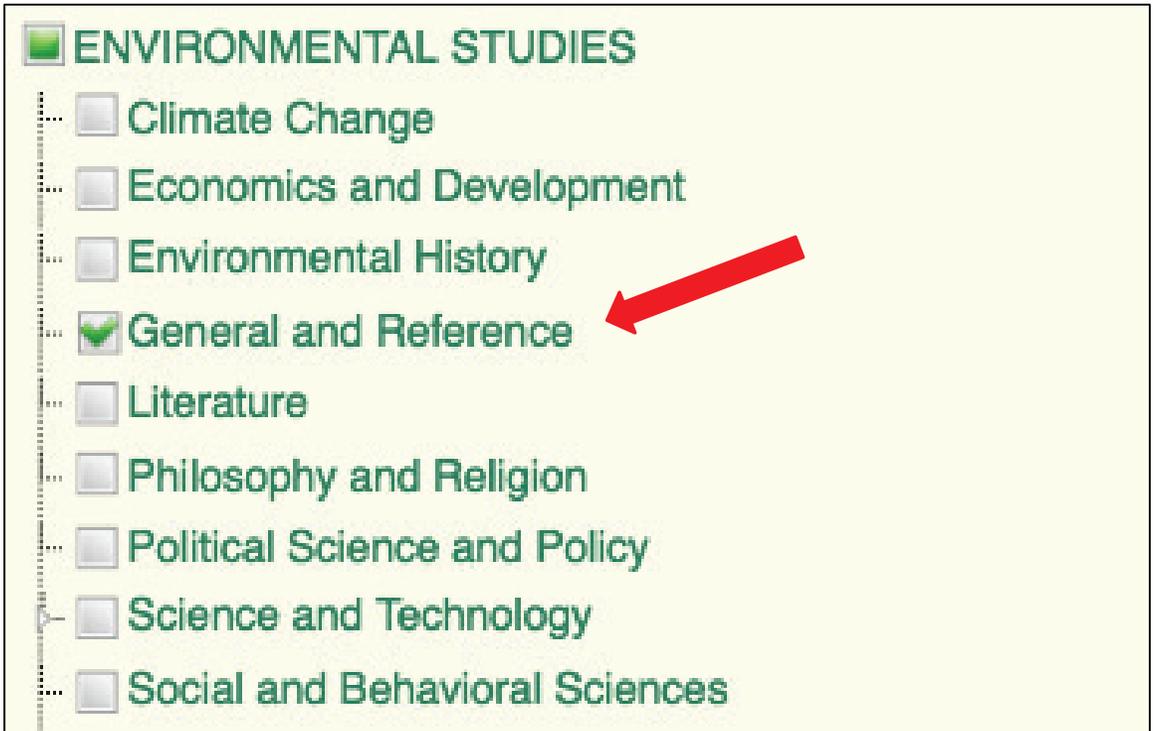

- discover introductory works,
- find librarian-approved reference resources, and
- reduce research anxiety with quality content.

Browse by subject

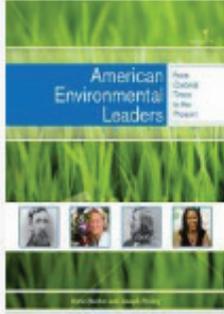

Browse the database by subject discipline.

Every RCL and RCL Career Resources subject has a **General and Reference** category to easily retrieve introductory works.

Search results

From the search results, you can expand or narrow your findings to discover the right book for your research needs.
