**More Teaching and Learning Resources**

Support your students with a wide variety of information types to help them to understand concepts and ideas more easily.

- New videos from Video from Springer Nature and Turner Broadcasting (CNN)
- Thousands of extra full text case studies bringing the total number to almost 150k
- New business cases from Thunderbird, American Garvin School of International Management and Darden School of Business.

**More News and Magazines**

Researchers and students need to stay up to date to understand wider context of their studies or research.

- The current full text of 110 extra news sources including online coverage from major Australian newspapers including Herald Sun and The Australian
- 60 new magazines and trade publications across many different subject areas including McKinsey Insights.

**Spotlight on The Economist...**

The Economist is well known for the quality and impartiality of its analysis and insight. Here are some facts about your access to The Economist in ProQuest that you may not have known...

- Usage of the Economist on ProQuest has increased by almost 20% in the last 12 months.
- It’s now even easier to see the very latest edition of publications like The Economist in our new Publications view, allowing you to see all the articles in every edition in order
- Every article in every magazine back to the start of 2018 is also available in pdf, giving ABI users the same visual elements they enjoy in print
- As well as the magazine, ProQuest Central also includes many of the reports from Economist Intelligence Unit including EIU Viewswire, Country Reports, Country Forecasts, World Commodity Forecast Reports, Financial Services Briefing and Country Data in Excel format from the G20 countries

**Learning Management System (LMS) Integration on the ProQuest Platform**

- Students can now access journal articles, videos, newspaper reports and more without leaving their LMS course environment and with no additional login.
- Instructors can now link to their institution’s ProQuest content from within a course, assignment, or reading list within their Learning Management System.

**The Latest Thinking – First!**

- Continuous additions of working papers from providers such as arXiv and RePEc - now over 2.5m in total
- Extra full text dissertations added - 300k now available
- 15 new sets of conference papers now over 200k

ProQuest Central

ALL SUBJECT AREAS. ALL REGIONS. ALL IN ONE PLACE.

PROQUEST CENTRAL BRINGS together many of our most used databases across all subject areas to create an incredibly broad and comprehensive content set.

Multi-Disciplinary. ProQuest Central offers great value by including databases in Business, Health and Medical, Social Sciences, Education, Politics, Criminal Justice, Linguistics, Religion, and SciTech, as well as core titles in the Performing and Visual Arts, History, Philosophy, and Language and Literature.

Key Titles, Diverse Content. The collection provides access to not only scholarly journals, but also to high value market research, country, economic, and industry reports, essential pre-print working papers, and full-text dissertations, as well as a vast number of professional journals, and general interest periodicals. It also includes full-text news sources from all over the world, which provide context to the extraordinary scholarly content in ProQuest Central.

Discoverability. Content discovery is an integral part of the ProQuest platform’s goal of driving better outcomes for our customers and their users. To this end, ProQuest content is discoverable through Primo, Summon, OCLC WorldCat, and Google Scholar. In addition, researchers at libraries with ProQuest databases, Ebook Central subscriptions such as Academic Complete, and Academic Video Online can now search and use this content on the ProQuest platform – in a comprehensive search that connects text and video.

Clean Interface. With its clean interface and responsive design, the ProQuest platform delivers a modern research experience that guides users’ discovery, access and management of rich, varied content sources.

ProQuest Central contains 47 databases across 175 subject areas:
